*We love to go to Disney world. The trip will cost \$6000. My Telcoe vacation club account helps me never needed a loan. I have the funds deposited out of my paycheck and it earns a dividend.*

What is your WHY?

*I opened 3 savings accounts(Christmas, Vacation, & New Car Account) and have \$10 going to each out of my pay check. It helps me keep my funds seperate and I really like I could name them.*

What is your WHY?

*My homeowners insurance gives a discount if I pay it annually. I started saving \$45 a payday and now can pay my policy annually. It is not a struggle to come up with the funds each year.*

What is your WHY?

*I like to have money tucked back for hunting season. If I need a new gun or 4 wheeler I don't want to have to upset the family budget. With the payroll savings to my Telcoe club account I always have what I need ready to go.*

What is your WHY?
